

DOCKING-ST1

Body Worn Camera Docking Station with LCD Screen

Key Features:

- 24 Bay Body Worn Camera Charging
- 19" Touchscreen operation
- Central Data store for Body Worn Footage
- Up to 10 Hard Drives for data store
- Access Control for Camera Withdrawal
- Data browsing via touchscreen operation

Product Overview

Infinity Body Worn cameras bring together high quality video with portability which allows you to protect staff, property and people by attaching video surveillance to one's person.

Infinity Docking Stations provide a central point to charge your body worn cameras and a repository to store all the footage. The Docking Station can act as a central system to browse footage, delete footage and provide access control to restrict who can withdraw a camera from the dock.

Features

Access Control

Restrict who can withdraw a camera for use from the dock

Central Store

A central data store for your body worn cameras

System Management

Browse/Delete footage from the central data store
