

# DOCKING-ST2

## Portable Body Worn Camera Docking Station

### **Key Features:**

- 9 Bay Body Worn Camera Charging
- 10" Touchscreen operation
- Central Data store for Body Worn Footage
- Up to 2 Hard Drives for data store
- Data browsing via touchscreen operation

## Product Overview

Infinity Body Worn cameras bring together high quality video with portability which allows you to protect staff, property and people by attaching video surveillance to one's person.

Infinity Docking Stations provide a central point to charge your body worn cameras and a repository to store all the footage. The Docking Station can act as a central system to browse footage and delete footage.

## Features

### Central Store

A central data store for your body worn cameras

### System Management

Browse/Delete footage from the central data store
